PROJECTS

Project Portfolio V2 — Developer Portfolio

- React, TypeScript, Vite, Tailwind CSS, Motion, Three.js
- Responsive single-page portfolio with animated sections and interactive project showcase

CRUD Task Management Portal | Live Demo

- Developed a full-stack application using Next.js, Node.js, Express.js, and PostgreSQL.
- Implemented REST APIs, CRUD operations, authentication, and API testing using Postman; built and deployed the UI using Vite and Codex-assisted UI implementation.
- Deployment: Frontend - Vercel | Backend – Render | Database – Neon (PostgreSQL)

Test Marks Entry & Viewer System | Live Demo

- Developed an end-to-end role-based system using React.js, Node.js, Express.js, and PostgreSQL with secure REST APIs.
- Implemented marks entry, viewing, deletion, CRUD operations, and database management with frontend and backend functionality.
- Deployment: Frontend - Vercel | Backend – Render | Database – Render (PostgreSQL)

Portfolio Website — Previous Version

- Built a responsive personal portfolio using HTML, CSS, and Bootstrap, showcasing skills, projects, resume, and contact information.

Internship Project

Health Dial Pharmacy Website

Developed and contributed to a Pharmacy Management Website during my 3-month Web Development Internship.

- Worked on Frontend Development using React.js and Vue.js.
- Contributed to Backend Development using Node.js.
- Worked on frontend and backend functionality.
- Gained hands-on experience working on a live company project.
